

Texas Division of Emergency Management State Situation Report

New Information in Blue Text

Event Name	24-0001 Wildfire Season 2024
Date	March 9, 2024
Time	10:00 AM
Operational Period	8:00 AM March 8 to 8:00 AM March 9, 2024
Report Number	10

Regions Affected

TDEM Regions Affected	1
DDs Active	1 & 2

STATEWIDE CURRENT SITUATION:

On March 8, Governor Abbott announced a temporary waiver for the Texas Comptroller of Public Accounts as Texas continues surging resources to support Texans and communities affected by the recent wildfires across the state.

On March 7, Governor Abbott directed the Texas Division of Emergency Management (TDEM) to request officials from the U.S. Small Business Administrations (SBA) to join with state and local partners to conduct preliminary damage assessments in communities impacted by wildfires to determine if Texas has met the threshold for additional federal disaster assistance.

On March 5, Governor Abbott held a briefing with state and local officials and provided an update on Texas' continued wildfire response efforts at a press conference in Canadian.

At the press conference, the Governor highlighted resources the State of Texas has provided to impacted communities as state and local emergency personnel continue responding to historic wildfires in the Texas Panhandle. Additionally, Governor Abbott emphasized the increasing need for livestock resources such as fencing materials, cattle cubes, and hay in the Panhandle. The Governor also honored Fritch Volunteer Fire Chief Zeb Smith who lost his life while responding to a structure fire in Hutchinson County for his heroic service, as well as the many firefighters who continue to risk their lives in the line of duty to protect their fellow Texans.

On March 1, Governor Abbott held a briefing with state and local officials and provided an update on the state's ongoing response to wildfires impacting Texans and communities across Texas during a press conference in Borger.

During the press conference, the Governor offered the full support of the State of Texas to impacted communities as they continue to experience dangerous wildfire conditions. Additionally, the Governor highlighted the extensive work state and local officials and emergency response personnel have done to respond to wildfire activity throughout the Panhandle region and provide assistance. The Governor also addressed Texas' plan to expand air support and debris removal services in affected regions as dangerous weather threats persist in the coming days.

On February 29, the Governor granted waivers for the Texas Commission on Environmental Quality (TCEQ), Texas Department of Motor Vehicles (TxDMV), and Texas Department of Public Safety (DPS) as Texas continues surging all available resources to support Texans and communities impacted by wildfires across the state.

Texans impacted by devastating wildfires are encouraged to complete TDEM's Individual State of Texas Assessment Tool (iSTAT) self-reporting damage survey to help state and local officials identify damages and determine the state's eligibility for federal disaster assistance. The survey is available in both English and Spanish and can be accessed by visiting: damage.tdem.texas.gov.

Information provided in the self-reported damage assessment surveys help emergency management officials identify any immediate resource needs and understand the extent of damage that has occurred. Survey information also aids officials in determining the state's eligibility for various forms of federal disaster assistance. Reporting damage through the iSTAT tool is a voluntary activity and is not a substitute for reporting damage to your insurance agency. It does not guarantee disaster assistance.

Texans are urged to heed guidance from their local officials, limit activities that may cause sparks or flames, and keep emergency supplies easily accessible. Texans can visit TexasReady.gov for wildfire tips, tfsweb.tamu.edu for safety information, and tdem.texas.gov to report wildfire damage.

On February 28, 2024, Governor Abbott directed the Texas Division of Emergency Management (TDEM) to deploy additional state emergency response resources to support wildfire response operations as ongoing wildfires impact the Texas Panhandle. The Governor also directed TDEM to increase the readiness level of the Texas State Emergency Operations Center (SOC) to Level II (Escalated Response) in support of the state's around-the-clock response.

In response to a request from the State of Texas, the Federal Emergency Management Agency (FEMA) has approved a Fire Management Assistance Grant (FMAG) request for the Smokehouse Creek Fire and Windy Deuce Fire, meaning

that Texas will be eligible for 75% reimbursement from the federal government for costs associated with fighting those fires.

According to the Texas A&M Forest Service (TAMFS), a high volume of dry, freeze cured grasses will continue to support fire spread on Wednesday. As the weekend approaches, the fire environment will trend warmer and drier, resulting in the potential for additional wildfire activity across the Texas Panhandle this weekend. Portions of South Texas continue to face increased wildfire risk, as well as East Texas, amid active burns. Additionally, the Texas A&M Forest Service raised the Wildland Fire Preparedness Level to Level 3 on Wednesday due to an increase in current and expected wildfire activity over the next several days.

On February 27, Governor Abbott issued a disaster declaration for 60 Texas counties in response to widespread wildfire activity throughout the state. Additional counties may be added if conditions warrant. Governor Abbott also directed the Texas Division of Emergency Management (TDEM) to activate additional state emergency response resources to support local firefighters responding to multiple wildfires burning Texas.

OPERATIONAL PRIORITIES:

1. Protect life and property.
2. Support rapid & effective response.
3. Collect and disseminate accurate incident information to improve decision-making.
4. Accurately track incident costs associated with assigned resources for cost recovery.

Region 1 (Includes DDs 1, 2, and 7)

Disaster District (DD) 1 – Amarillo (Includes Armstrong, Briscoe, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler Counties)

DDEOC 1 activated to Level II on February 27.

Carson County: A disaster declaration was issued for the entire county by the County Judge on February 28.

Childress County: Evacuated livestock are being housed at the Mashburn Event Center.

Gray County: Gray County issued a disaster declaration on February 28. County officials submitted a Disaster Summary Outline to TDEM on March 1. Evacuation from the city of Pampa is voluntary for residents and an emergency shelter is

located at First Baptist Church and at the Gray County Animal Supply Point in Pampa.

The Grapevine Creek Fire has burned 34,883 acres and is [96% contained](#).

Hemphill County: Hemphill County submitted a Disaster Summary Outline to TDEM on March 3. Hemphill County issued a disaster declaration on February 27.

Hutchinson County: The County Judge issued a disaster declaration on February 27, a Disaster Summary Outline on March 1, an update submitted on March 2, a disaster declaration continuation and Letter to the Governor on March 4. A request for a Fire Management Assistant Grant (FMAG) was submitted and approved by FEMA on February 27 for the Smokehouse Creek Fire (FM-5488-TX). Mandatory evacuation orders were issued for Meadowlark, Arroyo Verde, Sage Mesa, Bugbee, Double Diamond, Arrowhead, Sanford, Miami, and Maverick Village. The city of Borger relocated the agriculture supply point from the current location at the Hutchinson County Airport to 407 Industrial Blvd in Borger. A shelter at the Johnson Park Youth Center in Borger remains open. There will be a USDA meeting in Hutchinson County on March 7 for animal carcass removal.

The 687 Reamer Fire burned 2,000 acres before joining the Smokehouse Creek Fire, 14 homes and seven outbuildings have been lost with 10% containment.

The Smokehouse Creek Fire has burned 1,078,638 acres with [87% containment](#). The cities of Canadian, Miami, and Skellytown have been secured with both fire lines and blackline fire breaks. The city of Glazier remains under a mandatory evacuation for all occupants.

Moore County: A request for a Fire Management Assistance Grant (FMAG) was submitted and later approved by FEMA on February 27 for the Windy Deuce Fire (FM-5487-TX).

The Windy Deuce Fire has burned 144,206 acres with [92% containment](#).

Ochiltree County: The mandatory evacuation order remains in effect for residents from HWY 83 North to South River Road, to the Ochiltree County line.

Potter County: Potter County issued a Letter to the Governor requesting a declaration of a state of emergency on February 27. The city of Amarillo issued a disaster declaration on February 27. A mandatory evacuation order was issued for Mesilla Park and a shelter is open at 1330 NW 18th Street. First Methodist Church of Amarillo has announced that the church is open to evacuees.

Randall County: Randall County issued a disaster declaration on February 27.

Roberts County: Roberts County issued a disaster declaration on February 27 and a Disaster Summary Outline on March 4.

Wheeler County: Wheeler County Judge issued a disaster declaration on February 29.

DD 2 – Lubbock (Includes Bailey, Cochran, Crosby, Dickens, Floyd, Garza, Hale, Hockley, King, Lamb, Lubbock, Lynn, Motley, Terry, and Yoakum Counties)

DDCEOC 2 activated at Level III at 8:00 AM on March 7.

RESPONDING STATE AGENCIES/ORGANIZATIONS REPORTS

Texas Division of Emergency Management, Texas A&M University System (TDEM): TDEM worked with AgriLife Extension, Daisy Farms, and Logistics to move hay from Daisy Farms location to the Panhandle for the Animal Supply Centers. Continuing to communicate with our Private Sector Partners to provide situational awareness. TDEM collaborated with Mass Care and Boeing to help them with a proposed monetary donation for the wildland fire response. Texas Oil and Gas Association (TXOGA) met with TDEM representatives to strengthen situational awareness for refineries located in the panhandle. TDEM alongside AgriLife contacted feed companies and big box retailers for donated resources designated for incident recovery.

TDEM has communicated with Private Sector Partners (HEB and Walmart) to obtain their response posture. This included a survey of the retail environment to obtain awareness for open and closed locations in the affected area. TDEM has worked with the Texas Food and Fuel Association to secure fuel in affected areas.

TDEM continues working with Mass Care and HEB to aid in maximizing their planned donations for the affected area and coordinating with Walmart regarding four associates affected by the wildfire in Fritch. Walgreens continues to provide information on the Smokehouse Creek Fire, and TDEM has connected the United Supermarkets with American Red Cross to support donations.

TDEM Communications Coordination Group (CCG): Cisco Systems is providing networking equipment and Starlink high performance units at the Incident Command Post (ICP) in Amarillo and to the (2) base camps in Borger and Canadian.

Amateur Radio operators (RACES/ARES) are supporting the Panhandle with the wildfire situation. Amateur Radio operators have identified personnel and resources to be deployed. High Frequency (HF) nets have been activated and are providing public service information to residents with amateur radios in isolated areas.

The Commission on State Emergency Communications (CSEC) reported Public Safety Access Points (PSAP) in the Panhandle have contingency plans in place to re-route 9-1-1 calls. Several circuits have been re-routed due to non-fire issues with back-up connections due to interruptions from high winds.

TDEM Communications Division will be supporting internal and external communications requests through the deployment of Iridium satellite phones and hand-held land mobile radios (LMR). Other Private Sector Partners have reached out to offer assistance and resources.

The National Emergency Management Response (NEMR) group has a communications platform deployed to the Borger Base Camp.

Texas A&M AgriLife Extension Service (AgriLife): AgriLife currently has (16) personnel working at the Pampa Animal Supply point, (5) personnel at the Borger Animal Supply Point, (5) personnel supporting the Canadian Animal Supply point, (2) personnel assisting the Texas A&M Veterinarian Emergency Team located in Canadian, and (1) liaison at the Incident Support Team (IST). AgriLife agents continue assisting TAMFS and seven (7) County Extension Agents to complete damage assessments. AgriLife is coordinating with Texas Search and Rescue (TEXSAR) to distribute resources to all three animal supply points. A total of (39) requests for AgriLife assistance have been received and were forwarded to AgriLife field representatives to contact the affected landowners.

A State of Texas Assistance Request (STAR) was submitted on behalf of the Gray County Judge by the AgriLife SOC Liaison Officer (LNO). The request was for Disaster, Assessment and Recovery (DAR) Agents to stand up and staff an Animal Supply Point and Shelter in response to the wildfires in the Texas Panhandle. AgriLife Extension Liaisons have participated in situational weather awareness call, tactics, and Industry stakeholder coordination call. AgriLife agents are operating a shelter and food distribution of 109 round bales, and 80 50lb. feed bags were distributed. AgriLife Extension DAR Communications continues to provide the public information and response materials via the news media and social media accounts. AgriLife developed a DAR publication *Returning Home After a Wildfire* hosted on the www.texashelp.tamu.edu website. A press release was made on [Recognizing Mental Health Challenges and Symptoms following Wildfires](#).

Texas A&M Engineering Extension Service (TEEX/TX-PWRT): Crews assigned to Fritch have completed their mission of shutting off water to 200 affected connections and will now address chlorinator troubleshooting and repairs. TEEX/TX-PWRT coordinated with Texas A&M AgriLife Extension for carcass remediation operations. Additional team members are rostered and available to assist local and state partners as requested.

A SOC LNO has been assigned to support, monitor requests, and coordinate operations. Two TEEX/TX-PWRT strike teams are responding to TDEM Region 1 to stage for Public Works assistance and one TEEX/TX-PWRT lead is on site in Canyon (TDEM Region 1 District 1 DDEOC). Utilities team responded to the city of Canadian to evaluate a site for generator transfer power needs. A current total of twelve personnel for field response and one staff member at the SOC in Austin for Liaison and coordination of teams.

One TEEEX Liaison is on site in Amarillo (TDEM Region 1 District 1 DDEOC). The Liaison at DDEOC and SOC are monitoring WebEOC for requests and attending briefings. One PWRT member has been assigned to Texas A&M Forest Service for transportation support, two LNO's at the SOC, and 14 for field response.

Texas A&M Engineering Extension Service (TEEX) Texas Task Force 1 (TEEX/TX-TF1) and Texas Task Force 2 (TEEX/TX-TF2): [TX-TF1 were authorized to demobilize resources and return to home stations on March 9.](#) TEEEX TX-TF1/2 have identified 1,700 structures damaged and 396 are classified as destroyed.

Texas A&M Forest Service (TAMFS): Three Large Air Tankers (LAT) are available in Abilene awaiting deployment to assist in fire control. Local and State firefighters continue suppression efforts on several large wildfires burning across the Texas Panhandle. Intense winds, dry conditions, and warm temperatures contribute to active fire behavior and growth.

Texas Animal Health Commission (TAHC): [On March 8, TAHC will be adding agricultural carcass disposal numbers reported by TX A&M AgriLife Extension.](#) TAHC is actively coordinating with state veterinarian offices in New Mexico and Oklahoma to facilitate documenting interstate movement for livestock producers. TAHC has begun to distribute animal agriculture focused publications addressing carcass disposal guidance, state, and federal resources, and AgriLife supply point information.

TAHC is working with AgriLife Extension to incorporate animal agriculture losses from the drop location identified in Pampa and is communicating with the Texas and Southwest Cattle Raisers Association for numbers reported by producers. [The total number of animal losses to date is: 6,860.](#)

See the [TAHC Natural Disasters webpage](#) for updated information and resources for the 2024 Texas Panhandle Wildfires.

Texas Commission on Environmental Quality (TCEQ): TCEQ has staff available to respond to any air/water/waste issues including drinking water and wastewater or emergency response. TCEQ staff continue to provide technical assistance on debris and waste management operations.

Texas Department of Public Safety (DPS): The DPS Aviation Operations Division remains on call for continued aerial assistance as requested.

Texas Highway Patrol (THP) Troopers alongside local and county law enforcement continued 24-hr security coverage for the city of Fritch. THP Troopers are conducting patrol duties and traffic control in Hemphill and Hutchinson County.

Texas Department of Transportation (TxDOT): Local TxDOT crews have completed road treatment in anticipation of winter weather and are monitoring overnight conditions and plowing roads in impacted areas. TxDOT is coordinating a meeting for March 11, with Borger and Hutchinson Counties in addition to the city of Fritch to discuss clean-up efforts. TxDOT's mobile mechanic assigned to support TAMFS was demobilized at 7:00 pm on March 8. TxDOT has provided photo documentation to AgriLife agents to identify livestock carcass removal and remediation in the state-owned rights-of-ways (ROWs) in support of efforts to positively identify livestock and match with ranch owners. Local crews in Hemphill County begun repairs of delineation markers on March 6. TxDOT has provided responding agencies with a total of 1,495 gallons of fuel.

TxDOT contractors are aware of extensive damage and are working to replace the over 4,400 identified safety barriers, signs, delineators, and other roadway devices that were lost. Over 1,100 items were lost in the Windy Deuce fire and over 3,300 items were lost in the Smokehouse Creek fire. Local crews have begun recovery efforts and roadway restoration as materials become available and crews can safely enter. All major highways are open and flowing, however, motorists are encouraged to drive with caution and check [DriveTexas.org](https://www.drive-texas.org) for the most current road conditions, visibility warnings and road closures.

Texas Department of State Health Services (DSHS): DSHS has established points of contact (POC) for HHSC Behavioral Health Incident Command and Rapid Behavioral Health Assessment Teams arriving in Amarillo on March 11. DSHS PHR 1 plans to provide tetanus shots and other public health services to the following events March 9, Canadian Multiagency Resource Center (Hemphill Co) for individuals affected by the wildfire in Hemphill and Roberts Counties Time 10:00AM -4:00PM at the Exhibition Center (10965 Exhibition Rd, Canadian, TX 79014). March 15, Fritch Multiagency Resource Center (Hutchinson County) Time TBD, Celebration Family Church 811 E Broadway St., Fritch, TX 79036.

A request from TDEM-Recovery was submitted for DSHS to present a Fire-Reentry Safety briefing targeting survivors and responders during the Recovery and Coordination call.

DSHS Texas Emergency Medical Task Force (DSHS/EMTF): On March 8, all Wildland Fire Support Packages (WLFS) were released from assignments and returned to home bases. EMTF-1 will remain on a standby status in Lubbock Staging in case a need is identified.

Texas Military Department (TMD): TMD CH-47 activated aircraft have flown a total of 46 hours and dropped a cumulative 100,800 gallons of water. TMD has one CH-47, two UH-60 rotary wing aircraft, and one UH-60 rotary wing aircraft with lift capabilities to support TX-TF1 medics in response to critical fire weather activated. One MQ-9 Remote Piloted Aircraft has been activated to provide aerial reconnaissance and situational awareness of fire operation. An LNO to TAMFS, a Winter Weather MRP and a SOC Support team are also activated in addition to the 42 TMD personnel and eight vehicles activated.

Texas Health and Human Services Commission (HHSC): HHSC has deployed a 6-person Rapid Behavioral Health Assessment Team (RBHAT) to Amarillo to evaluate both the incident situation and to assess the behavioral health resources needed. On February 28, HHSC has one liaison at the SOC and the 2-1-1 Texas Information and Referral Network is distributing relevant information about disaster response, including shelter locations.

Texas Department of Licensing and Regulation (TDLR): TDLR staff are at the SOC and stand ready to assist as requested.

American Red Cross (ARC): The ARC closed all shelters but are prepared to open shelters if needed. Red Cross has 92 responders, consisting of volunteers & staff on the ground working out of the Amarillo ARC office to provide services. The ARC will participate in a Multi Agency Resource Center (MARC) event on March 9, at the Community Exhibition Center in Canadian from 10:00AM – 4:00PM. Volunteers will begin installing smoke alarms in Fritch and Borger (may add Stinnett) and are organizing to install smoke alarms in Canadian next Sunday. Teams are providing fixed DES services at the Celebration Family Church in Fritch, the First Baptist Church in Stinnett, and the Hemphill Co Library in Canadian. Using aerial photography, ARC completed damage assessments to homes in impacted areas. DES has planned delivery in four ways: fixed sites, pop-ups, mobile routes, and in response to requests. ARC plans to continue to deliver DES in Fritch, Canadian, and mobile delivery of DES in Stinnett. ARC is assisting clients with medical and mental health needs, and spiritual care.

Total Assessments: 950 Destroyed: 262 Major Damage: 0

The ARC has distributed 1,232 meals, 85 clean up kits, 10,401 DES, and 222 households have been provided with DES to date.

Texas Baptist Men (TBM): An initial team arrived on March 3 and have been assessing the damage. TBM has received requests for debris cleanup assistance and 40 pending cleanup requests for fire recovery, chainsaw, and heavy equipment. Services provided by TBM as of March 7, include a total of 2,392.5 hours logged by volunteers, 803 meals prepared, 51 damage assessments completed, 141 hours of heavy equipment operations, 144 showers, and 53 loads of laundry provided to volunteers and victims.

The Southern Baptist of Texas Convention (SBTC): SBTC has prepared 1,678.5 meals as of March 9. The states of Kentucky and Arkansas have sent several loads of hay, and one load was received from Waxahachie, TX. A Quick Response Feeding Unit continues to support the operation. Clean up and Recovery Units will work through March 14. Three clean-up assistance jobs have been completed by SBTC, 11 clean-up assistance jobs were completed by other groups and 25 requests remain open.

The Salvation Army (TSA): As of March 8, TSA has distributed 1,984 meals, 2,192 snacks, 2,149 drinks, 158 comfort/hygiene kits and 15 TSA store vouchers. Emotional & Spiritual Care teams will continue to support the community through next week. At the request of the Borger Fire Department, the Borger Service Unit provided meals to the fire station. The Pampa Service Unit will participate in the MARC in Canadian over the weekend. ESC personnel will be present.

FINAL COMMENTS: The State Operations Center (SOC) is at Level II (Escalated Response Conditions). The Texas Division of Emergency Management (TDEM) continues to monitor the situation and will provide additional situation reports as needed.

The four levels of SOC activation are:

- Level I (Emergency Conditions)
- Level II (Escalated Response Conditions)
- Level III (Increased Readiness Conditions)
- Level IV (Normal Conditions)

*This Situation Report can be found on the TDEM webpage at:
