

Texas Division of Emergency Management State Situation Report

New Information is in Blue Text

Event Name	24-0016 06JULY Tropical Weather
Date	July 11, 2024
Time	10:00 AM
Operational Period	8:00 AM July 10 to 8:00 AM July 11, 2024
Report Number	6

Regions Affected

TDEM Regions Affected	3, 4, 5, 6, and 8
DDs Active	14, 16, 17, 19

STATEWIDE CURRENT SITUATION: On July 10, Governor Abbott announced that 67 Texas counties have been approved for federal disaster assistance as part of a [Major Disaster Declaration](#) approved by the President following impacts to the state from Hurricane Beryl.

On July 9, Governor Abbott provided an update on the ongoing response effects to Hurricane Beryl in Texas. The Texas Division of Emergency Management (TDEM) and state agency partners remain in constant contact with local officials throughout the response and recovery from Beryl to ensure all needs are met.

Acting Governor Patrick spoke with President Biden and requested a federal disaster declaration through the Federal Emergency Management Agency (FEMA). The President granted the state's request. The Major Disaster Declaration allows for reimbursement for up to 75 percent of costs associated with expenses for debris management and emergency protective measures. The State of Texas may make additional requests as damage assessments are completed.

On July 6, Acting Governor Patrick added 81 counties to the state's Hurricane Beryl Disaster Declaration as storm forecasts have shifted the expected landfall north and east of previous projections.

On July 5, Acting Governor Patrick issued a disaster proclamation certifying that Hurricane Beryl poses a threat of imminent disaster, including widespread and severe property damage, injury, and loss of life due to widespread flooding, life-threatening storm surge, damaging wind, and heavy rainfall in Atascosa, Bee,

Bexar, Brooks, Calhoun, Cameron, DeWitt, Dimmit, Duval, Frio, Goliad, Gonzales, Hidalgo, Jackson, Jim Hogg, Jim Wells, Karnes, Kenedy, Kinney, Kleberg, La Salle, Lavaca, Live Oak, Matagorda, Maverick, McMullen, Medina, Nueces, Refugio, San Patricio, Starr, Uvalde, Victoria, Webb, Wharton, Willacy, Wilson, Zapata, and Zavala Counties.

On July 4, Governor Abbott directed the TDEM to increase the readiness level of the State Emergency Operations Center to Level II (Escalated Response Conditions) effective at 10 a.m. on Friday, July 5. The Governor also instructed TDEM to begin readying state emergency response resources for potential deployment ahead of Hurricane Beryl.

On July 3, Governor Abbott directed TDEM to issue an advisory notice to the 39 Texas Emergency Management Council Agencies to prepare to support hurricane response and recovery efforts and develop 24/7 staffing plans for the State Emergency Operations Center should the forecast track for Hurricane Beryl further materialize with expected impacts to the Texas Gulf Coast.

On July 2, TDEM urged Texans that live in and are visiting coastal communities for the Fourth of July holiday to keep an eye on the Gulf, heed warnings of local officials, and have a plan in place should tropical weather impacts reach the Texas coast.

OPERATIONAL PRIORITIES:

1. Protect life and property.
2. Support rapid & effective response.
3. Collect and disseminate accurate incident information to improve decision-making.
4. Accurately track incident costs associated with assigned resources for cost recovery.

Region 3 (Includes DDs 5, 6, 14, and 15)

DD 15 – Beaumont (Includes Hardin, Jefferson, and Orange Counties)

Jefferson County: On July 7, the city of Port Arthur issued a voluntary evacuation notice for Sabine Pass and the Pleasure Island areas.

Region 4 (Includes DD 16)

DD 16 – Houston (Includes Austin, Brazoria, Chambers, Colorado, Fort Bend, Galveston, Harris, Liberty, Matagorda, Montgomery, Walker, Waller, and Wharton Counties)

Galveston County: On July 6, the city of Galveston issued a voluntary evacuation notice for the island's west end. On July 7, the city of La Marque issued a voluntary evacuation notice for Omega Bay and all areas outside of the levee system.

Matagorda County: On July 7, the city of Bay City issued a city-wide curfew for 11:00 PM.

Region 5 (Includes DDs 19-21): On July 6, Region 5 will stand up a Regional Emergency Operations Center (EOC) at the Weslaco Texas Department of Public Safety (DPS) Headquarters.

DD 19 – Laredo (Includes Jim Hogg, Starr, Webb, and Zapata, Counties): District Chief (DC) 19 engaged with the City of Laredo for planning sheltering operations and monitoring hotel availability.

Hidalgo County: Shelters locations for out-of-town evacuations; The LBJ 9th Grade Campus, 5511 St. Luke Dr., Laredo Tx. 78046 and Laredo College, 1 West End Washington St., Laredo, TX., 78040 – POC – Chris Niles (956-285-2113).

DD 20 – Corpus Christi (Includes Aransas, Bee, Brooks, Duval, Jim Wells, Kenedy, Kleberg, Live Oak, Nueces, Refugio, and San Patricio Counties): DC 20 has established communications with the Corpus Christi State Supported Living Center (SSLC), local jurisdictions, and elected officials to identify potential needs.

Aransas County: On July 6, county officials issued a Voluntary Evacuation Order for residents living in low-lying areas or with special needs.

Kleberg County: On July 4, Kleberg County issued a Voluntary Evacuation Order for Loyola Beach, Baffin Bay, and all low-lying areas across Kleberg County. FEMA opened the Safety Shelter Dome, located behind the H.M. King High school, on July 6. The Kleberg County Human Services Department was available to provide transportation for those in need. On July 8, Kleberg County rescinded the voluntary evacuation order and closed the emergency shelter.

Refugio County: On July 6, a Mandatory Evacuation Order was issued due to limited emergency services and inundated highways.

San Patricio County: On July 6, the city of Ingleside issued a Voluntary Evacuation Order for residents living in low-lying areas of the city, residents with special needs that require extended time to leave, or residents housed in recreational vehicles (RV).

DD 21 – Weslaco (Includes Cameron, Hidalgo, and Willacy Counties): DC 21 has established communications with the Rio Grande State Hospital, the Texas Juvenile Justice Department, and the Incident Support Team (IST) San Antonio.

Cameron County: On July 3, Cameron County issued a Voluntary Evacuation Order for RV and other high-profile vehicles for guests staying at the following county parks; Isla Blanca Park, Andy Bowie Park, and Adolph Thomae, Jr. Park in Arroyo City.

Willacy County: On July 5, a Voluntary Evacuation Order was issued for RV and other high-profile vehicles for guests staying at Port Mansfield.

Region 6 (Includes DDs 17, 18, and 24)

DD 17 – Victoria (Includes Calhoun, DeWitt, Goliad, Gonzales, Lavaca, Jackson, and Victoria Counties)

Calhoun County: On July 5, Calhoun County issued a Voluntary Evacuation for low-lying and flood prone coastal areas.

Jackson County: On July 5, Jackson County issued a Voluntary Evacuation for low-lying and flood prone coastal areas. On July 8, the voluntary evacuation was rescinded.

RESPONDING STATE AGENCIES/ORGANIZATIONS REPORTS

Texas Division of Emergency Management, Texas A&M University System (TDEM):

Communications Coordination Group (CCG): TDEM CCG partners, in the public private, and volunteer sectors, are monitoring the incoming weather and are preparing resources to respond. The Commission on State Emergency Communications (CSEC) has instructed the Councils of Governments (COGS) to notify CSEC of any 911 system outages or impacts to Public Safety Answering Points (PSAP). Cellular providers are monitoring their networks and have response teams on standby. The Statewide Satellite Initiative service providers are confirming the status of their networks. Amateur Radio services were instructed to reach out to their served agencies and Amateur Radio networks began operating on July 6. The Cybersecurity and Infrastructure Security Agency (CISA) and the (Federal Communications Commission) FCC are planning for possible pre-landfall assessments. TDEM and the FEMA Region 6 Integrated Public Alert and Warning System (IPAWS) Representative have been in contact with FEMA IPAWS and local jurisdictions to help answer any questions about the possible use of their IPAWS systems.

CCG Partners, TDEM, the Commission on State Emergency Communications (CSEC), Texas Department of Public Safety Office of the Statewide Interoperability Coordinator (SWIC), FEMA Region 6, and CISA are having daily communication coordination calls. CISA will provide temporary access to Government Emergency Telecommunications Service (GETS) and Wireless Priority Service (WPS) cellular calling cards, and the cellular calling cards will be good for the duration of this hurricane season. CISA will also provide access letters for personnel to reenter storm areas if there is a need to provide repairs to damaged critical infrastructure. FEMA and CISA will identify services they can provide under the current Governor's

declaration. The Texas Association of Broadcasters (TAB) is developing a list of counties to submit to the (FCC) for pre-landfall analysis of radiofrequency (RF) spectrum. Repeaters, VHF, and UHF networks are being established to provide critical communications links for RELLIS at College Station, East Texas, and coastal areas.

On July 8, Amateur Radio Hurricane networks went live, and Radio Amateur Civil Emergency Service (RACES) are providing support to the DDEOCs. The Statewide Satellite Initiative (SSI) network has alerted the satellite network providers to increase satellite bandwidth if necessary. CSEC reported that the Refugio PSAP has been evacuated, and 911 calls are being re-routed to the Bee County Sheriff's Office.

Multiple counties were impacted by cellular outages and interruptions. A cellular Mini-SAT has been deployed to the Matagorda County EOC, and a SATCOLTs were deployed Matagorda and Fort Bend Counties. The Harris County T-Mobile Mobile Switching Office (MSO) is damaged and operating on generator power. Major carriers have deployed representatives to the SOC. T-Mobile is coordinating with the city of Houston for distribution of cellular charging stations at cooling centers. FEMA has deployed a Disaster Emergency Communications (DEC) Group Supervisor to the SOC to support ESF 2 response. Amateur Radio Emergency Communications (EMCOM) nets continue to provide backup communications for multiple local EOCs.

Incident Support Task Force (ISTF): TDEM Regions 4, 5, and 6 counties are evaluating impacts from the weather track in counties with damaging winds and flooding. Power outages have displaced some citizens that remained in their homes. Evacuations were completed on July 7. Repopulation transport from Webb County back to Aransas and Refugio Counties was completed on July 8.

ISTF is tracking 16 shelters with a total population of 532. There are 13 feeding sites and mobile areas in operation. To date, 4,315 meals have been served, and 12 food pallets and 13 water pallets distributed.

Texas A&M Engineering Extension Service Texas Task Force 1 (TEEX/TX-TF1): On July 6, TX-TF1 activated a Type 1 Water Capable Urban Search and Rescue Team (USAR), a Type 3 Water Capable USAR Team, four Swift Water Rescue (SWR) Boat Squads, a Water Group Supervisor package, and an overhead team. The Two SWR Boat Squads activated to assist New Mexico were redirected to join four SWR Boat Squads in Texas. USAR teams will be positioned in San Antonio and areas along the gulf coast.

On July 7, Resources from TX-TF1 were moved towards northeast Texas as Hurricane Beryl moves to the east. TX-TF1 boat squads conducted joint training with Texas Intrastate Fire Mutual Aid System (TIFMAS), and Texas Military Department (TMD) on possible storm scenarios.

On July 8, as the storm passed teams coordinated with local jurisdictions to provide support if needed. Following the completion of the mission in Jasper, Texas Task Force 1's US&R team repositioned to Nacogdoches for the night. Texas Task Force 2 finished in Tyler and moved to Atascocita for the night.

Texas A&M AgriLife Extension Service (AgriLife): AgriLife has been in contact with officials in affected counties to monitor needs and provide support. The AgriLife Extension Public Information Officer (PIO) has distributed hurricane and flood preparedness with evacuation of pet and livestock information to social media and media outlets. County Extension Agents (CEA) continue to notify landowners to move livestock and equipment out of flood prone areas. One Disaster Assessment and Recovery (DAR) agent was assigned to RELLIS, one AgriLife Liaison Officer (LNO) assigned to the SOC, and DAR agents in coastal counties are available to support any requests for assistance. The DAR Agent for Disaster District 19 worked with the CEA for Webb County to fulfill a State of Texas Assistance Request at the local level for animal shelter supplies for evacuees and their animals.

AgriLife continues to work with the Texas Animal Health Commission and Texas Department of Agriculture on any unmet needs pertaining to agricultural or animal issues.

Texas A&M Forest Service (TAMFS): Four TIFMAS All Hazard Strike Teams (ST) mobilized on July 6 and are assigned to the Westheimer Armory in Houston, the Jim Wells County Fair in Alice, the TDEM Warehouse in San Antonio, and RELLIS in Bryan. TAMFS has sent staff to the State Operations Center (SOC), TDEM IST, DD 20, and DD C21.

On July 8, Strike Teams 167, 168 and 169 repositioned as follows; ST 167 to Beaumont, ST 168 to Corsicana and ST 169 to Tyler. A fifth ST (ST 174) with High Profile Vehicles has been mobilized and has been activated and deployed to Tyler to assist ST 169. Additionally, TIFMAS rostered 4 SAW teams, who were deployed to Region 3, and 9 SAW teams that are enroute to Region 8.

Other State Agencies

Public Utility Commission of Texas (PUCT): Outages surpassed 2.5 million on July 8 due to Hurricane Beryl. The overwhelming majority of these are in the CenterPoint territory.

As of 10 July, utilities have made over 1.3 million restorations since Beryl cleared the state, with 1.48 million outages remaining to be restored. CenterPoint has 1.24 million customers out, Entergy has 128k, TNMP has 58k, Sam Houston Electric Coop has 48k, and AEP has about 6k.

Entergy has shared that restoration is expected to continue through July 14, TNMP expects completion July 13, and AEP expects completion July 11. PUCT is still working on an estimate from Sam Houston, and CenterPoint has begun providing

some information on their restorations on their website. However, there is not yet any timelines associated with the CenterPoint information.

Texas Animal Health Commission (TAHC): TAHC has been in communication with animal control shelters with outdoor facilities to make appropriate accommodations for the incoming weather. The Nueces County Animal Shelter worked to clear out their shelter to make room for animals that may come in post-storm. Nueces County requested assistance for transporting animals to the Williamson County Animal Shelter, but Williamson County has limited space. Both animal shelters are working together to find additional locations to move the animals.

On July 8, TAHC was notified of a barn collapse in the city of Sealy. A local vet from the city of Columbus was notified to help support response efforts/rescue of 3 horses.

Texas Commission on Environmental Quality (TCEQ): TCEQ has deployed emergency response staff and the Mobile Monitoring Team (MMT) along with the Strategic Mobile Air Reconnaissance technology (SMART) vans and Regional Air Survey vehicles to conduct environmental air monitoring in storm-impacted areas. TCEQ staff are working to determine operational status of drinking water systems, wastewater treatment facilities, landfills, coastal superfund sites, and dams in the impacted areas and are identifying any issues as well as providing technical guidance, as needed.

TCEQ is tracking 199 drinking water systems that are on a Boil Water Notice (BWN) serving a population of 139,000. TCEQ is tracking 22 drinking water systems and 34 wastewater treatment facilities that are non-operational.

TCEQ has created Hurricane Beryl Response link on the agency webpage: <https://www.tceq.texas.gov/response/hurricanes/hurricane-beryl>

Texas Department of Public Safety (DPS): DPS is providing resources in support of Hurricane Beryl and Texas Highway Patrol (THP) are actively monitoring traffic patterns and conditions. DPS in Corpus Christi, Weslaco, and the McAllen Border Districts reported THP will be staffing the Disaster District Emergency Operations Centers (DDEOC) in their respective areas and are in communication with TDEM field personnel. DPS in Houston, DPS personnel are staffing the DDEOC and THP is monitoring traffic and roadway conditions. Troopers are patrolling neighborhoods in Houston where there is no power. Conroe and Rosenberg will assist with staffing the DDEOC in Beaumont. DPS in Beaumont reported they have run the evacuation routes, reviewed plans, and continue to monitor the weather. THP troopers in the DPS Houston and Weslaco regions are patrolling evacuation routes and other highways and will adjust their assignments as the weather changes. DPS in Victoria reported they will begin staffing the DDEOC in Victoria. THP continues to staff the DDEOC in Victoria. DPS in San Antonio received a request to assist with conducting Level 1 bus inspections for potential evacuations.

Bus inspections are being conducted at the TDEM warehouse in San Antonio. DPS Aviation repositioned a helicopter from Austin to Houston on July 9. DPS Aviation has helicopters, with hoist capabilities and rescue specialist, in Houston, Dallas, San Antonio, and Edinburg are available. Personnel are coordinating at the Houston DDEOC.

DPS Director McCraw issued an emergency declaration, a Suspension of Motor Carrier Vehicle Hours and Service Requirements.

Texas Department of State Health Services (DSHS): The State Medical Operations Center (SMOC) is fully activated with 90 personnel. Seven Public Health Regions-Regional Health and Medical Operations Centers are at increased activation level. DSHS is aware of power issues and other facility issues in Sweeney, Angleton, Lake Jackson, Katy, Houston, Baytown, Sugar Land, and Bay City that may require evacuation support. Coordination is ongoing with the Catastrophic Medical Operations Center (CMOC) and the Texas Emergency Medical Task Force (EMTF) on resource requirements to support these facilities.

DSHS is tracking issues affecting an additional 19 locations including emergency rooms, hospitals, and disease unit/facilities. There are no unmet needs or resources required for these locations.

DSHS is also tracking 92 End Stage Renal Disease facilities closed in anticipation of the hurricane in Houston, Fulshear, Corpus Christi, and Harlingen areas. These facilities arranged to dialyze patients prior to landfall and plan to resume dialysis services upon reopening. Of those, 29 were scheduled to reopen on July 9. There are no unmet needs or resources required for these locations.

DSHS has been in communication with their Public Health Regions, hospital preparedness program partners, and vendors. The Public Health Regions have been in contact with their TDEM counterparts. Post tropical weather mosquito abatement guidance and first responder immunization guidance has been disseminated.

Resources from EMTF and the National Emergency Management Response have been reallocated to support the evacuations of Refugio and Aransas. In Schertz, a 50-bed medical shelter was established. Twenty oxygen concentrators and 20 oxygen cylinders are being sent to the Laredo shelters. DSHS has activated their pharmacy contracts for evacuated residents, and first responders have received immunization guidelines.

All EMTF resources arrived at their new staging areas in NRG Houston, Corsicana, Lufkin, and Jasper/Beaumont. The two patients in the Schertz medical shelter were transported back to their families on July 9.

EMTF is supporting the TDEM IST, TX-TFs 1 and 2, four multi-discipline state response task forces, and conducting ongoing operations to support impacted ESF-8 entities from staging sites in Lufkin and Houston. Operational tempo is increasing

and EMTF is seeing an increase in O2 needs, wellness checks on long term care facilities due to storm damage and widespread power outages compounded by high heat indices and increased 911 call volumes.

A medical shelter at NRG area is fully operational with 250 beds. 24-hour security has been requested from TDEM for the NRG medical shelter and currently has census of 23. More space is being requested to accommodate billeting for staff. A STAR for saline for Montgomery County hospital is currently being filled. Additional oxygen resources are being moved to NRG staging. EMTF resources were deployed to 13 hospitals in the Houston area to receive and provide basic care for patients arriving by ambulance while waiting for a bed. Oxygen resources were demobilized from the Laredo general population shelter. Directional signage has been requested from TxDOT to assist patients driving into the NRG Medical Shelter. Additional Oxygen resources are being staged at the NRG staging area.

As of July 10, EMTF has conducted 68 Oxygen deliveries and wellness checks, assisted three facilities with evacuations, had eight ASTs supporting 911 and have staged ambulance crews at various hospital emergency departments across the Houston metro to assist with getting EMS units back into service.

Texas Department of Transportation (TxDOT): All 25 TxDOT districts closely monitored all weather threats, implementing hurricane response plans, and stood up Emergency Operation Centers (EOC). TxDOT crews checked and cleared drainage features, sweeping evacuation lanes, clearing evacuation routes, and TxDOT contractors were given notice of possible impacts from the weather. All coastal districts and one district inland rostered crews to respond to the weather and the southern coastal districts worked throughout the July 5 weekend implementing response plans. On July 7, TxDOT activated their EOCs in the impacted areas.

The Maintenance (MNT) Division has been conducting statewide TxDOT weather coordination calls and staffing the SOC. The Fleet Operations rented loaders, pumps, and generators. The Galveston ferries put hurricane procedures in place and the Port Aransas Ferry suspended their operations. Ferry operations will be closely monitored and adjusted in coordination with the US Coast Guard. The Traffic Division posted tropical warning messages on the Direct Messaging System (DMS) in areas within the path of the storm. The Communications Division shared tropical awareness messages and the Travel Division rostered additional staff to oversee any influx of calls.

As of July 9, there are 30 impacts on state roads due to flooding. There are numerous intersections with inoperable traffic lights in the Houston and Yoakum Districts, along with 9 state roadways that are closed due to downed powerlines and trees. The Galveston Ferry resumed operations with 1 operational ferry. Crews previously stationed in San Antonio arrived at the Base Camp in Sugar Land and have begun repairs. Three Traffic Signal crews that were deployed to Yoakum started signal repairs; they expect to complete repairs before Friday.

Evacuation Route maps are available at <https://www.txdot.gov/safety/severe-weather/hurricane-preparation.html>.

Texas Health and Human Services Commission: (HHSC): As of July 8, HHSC Health & Specialty Care System (HSCS) reported impacts to State Supported Living Centers (SSLC). Richmond SSLC is continuing to shelter in place due to high winds, and a backup generator. HHSC Disaster Behavioral Health Coordination has reached out to Local Mental and Behavioral Health Authorities (LMHA) in the anticipated impacted areas.

HHSC Regulatory Services has communicated to all licensed facilities within the impacted counties and has conducted call downs to all Long-term Care (LTC) facilities in impacted areas. Facilities evacuated include three nursing facilities (NF), two assisted living facilities (ALF), nine intermediate care facilities (ICF), and 34 Home and Community-Based Services (HCS) homes. Facilities without power and on generators include 87 NFs, five ICFs, and three Hospice providers. Facilities without power or generator include 16 ALFs, 24 ICFs, and 50 HCS.

HHSC has activated contingency contracts for ice and water to support the resource staging area (RSA) and has purchased 35 truckloads of ice and 35 truckloads of water as of July 9.

Texas Military Department (TMD): TMD has activated three Ground Transportation Platoons (GTPs), one Ground Transportation Company Headquarters (GTCHQ), two CH-47 helicopters and three aircraft with TX-TF1 rescue swimmers, the Air Operations Center at Camp Mabry, four ETN Teams, 10 personnel for GPS Installation, four Ground Support Units (GSUs), a Ground Support Unit Headquarter (GSUHQ), the SOC Support Team, one LNO to support the IST in RELLIS, one LNO to support the DPS Regional Emergency Operations Center (REOC) in response for the incoming tropical weather, and one Base Camp Team.

TMD has activated an ABS in Austin for Administrative Support.

TMD has activated up to 230 personnel and 20 Vehicles in support of 24-0016 06JUL Tropical Weather.

Texas Parks and Wildlife Department (TPWD): TPWD prepared a strike team consisting of 14 Game Wardens, 14 4x4 vehicles, one airboat, and five shallow running boats. An additional Incident Command Unit (ICU), one bulk fuel trailer, one cargo trailer, and one radio trailer were made available in Houston. TPWD continues to work closely with TDEM to ensure SAR resources and first responders are available. All TPWD resources returned to normal operations on July 9.

Federal Agencies

Navy Region Southeast (Corpus Christi): The Commander has ordered the Tropical Cyclone Condition of Readiness Three for the Coastal Bend area to the Mexican Border.

United States Coast Guard (USCG) Port of Corpus Christi: The USCG Captain of the Port (COTP) has set Port Condition Zulu from the Colorado Locks to the U.S.-Mexico border, including the Port of Corpus Christi on July 5. Owners, operators, or agents of self-propelled oceangoing vessels over 500 gross tons, all barges, and their support tugs should review USCG plans prior to departing or to remain in port.

United States Coast Guard (USCG) Sector Houston-Galveston: The Captain of the Port (COTP) has set Port Condition Zulu for the ports of Houston, Galveston, Freeport, Texas City, and the Gulf Intracoastal Waterway from the Colorado Locks going east to High Island Bridge. COTP is working with coordinating agencies to deploy survey vessels to verify the condition of the waterways and is allowing minimal movements within the port to support crew change outs for tug vessels.

For information on Port Conditions, please refer to Sector Houston-Galveston MSIB 13-24 and Heavy Weather forms, which are located on HOMEPORT at: [Sector Houston/Galveston Homeport](#).

Volunteer Organizations Active in Disasters (VOAD)

American Red Cross (ARC): ARC is staging relief supplies and bringing in resources for feeding and sheltering needs. ARC has opened shelters and they can be located on the Red Cross [Find Open Shelters](#) website. To date, **2,800** meals have been served.

Southern Baptists of Texas Convention (SBTC): SBTC and out of state partners are responding to recovery needs, primarily chainsaws, in Jasper, Spring, and Texarkana. SBTC is supporting a shelter at the Galveston County Fairgrounds with a shower unit. To date, SBTC has **provided 26 showers** and has dedicated **450** volunteer hours.

The Salvation Army (TSA): TSA has activated one IMT and set up two operations, in conjunction with SBTC and Texans on Mission (TOM). Operations in Harris and Wharton Counties will house TSA, SBTC and TOM, as well as two field kitchens and disaster support teams.

TSA has eight feeding units serving meals in Brazoria, Harris, Matagorda, and Wharton Counties. TSA has seven additional mobile feeding units serving meals in Libert, Montgomery, and San Jacinto Counties as of July 10. An additional five mobile feeding units started on July 11. To date, TSA has provided 6,498 meals, 1,710 drinks, and 1,975 snacks.

FINAL COMMENTS: The State Operations Center (SOC) is at Level II (Escalated Response Conditions). TDEM continues to monitor the situation and will provide additional situation reports as needed.

The four levels of SOC activation are:

- Level I (Emergency Conditions)
- Level II (Escalated Response Conditions)
- Level III (Increased Readiness Conditions)
- Level IV (Normal Conditions)

This Situation Report can be found on the TDEM webpage at:
