Hazardous Weather

Less Heat, More Storm Chances Today

Weather Forecast Office
Amarillo, TX
Issued August 26, 2024 3:57 AM

Forecast High Temperatures

Afternoon - Evening Storm Chances

NWSAmarillo

weather.gov/ama

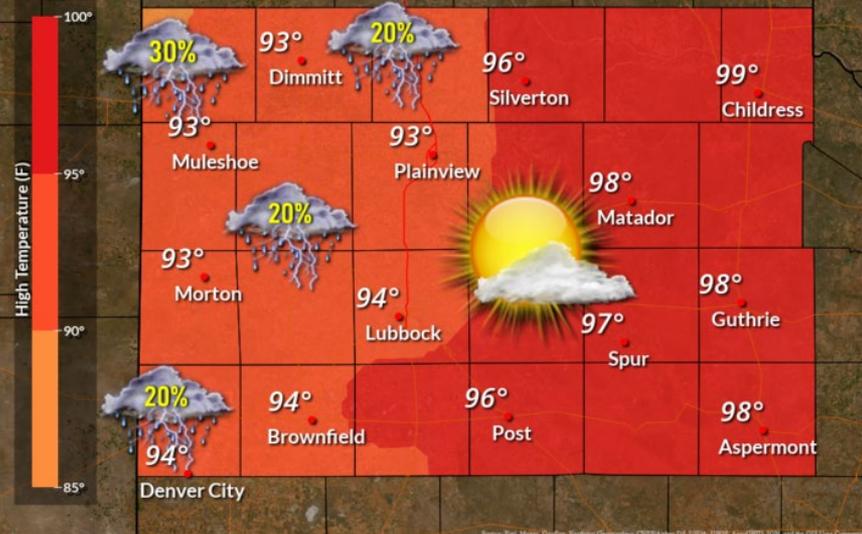

No record highs? Fewer triple digits?? More rain & storm chances??? What a sight for sore eyes! The worst of the heat wave looks to be behind us, as we kick off a gradual cooling trend today. A few spots could still hit 100 this afternoon, but that will be the anomaly rather than the norm. Scattered storms will return to the western and central Panhandles later this afternoon-evening with strong wind gusts and heavy rain possible once again.

Monday: Less Heat with Some Storms

Weather Forecast Office
Lubbock, TX
Issued Aug 26, 2024 1:33 AM CDT

Partly to mostly sunny with afternoon thunderstorms west

High Temperature (F)

NWSLubbock

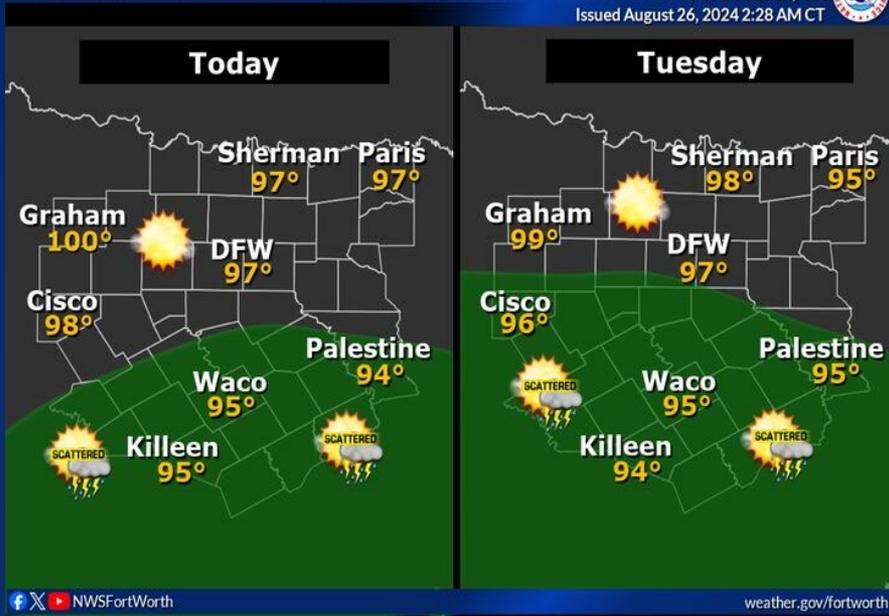

weather.gov/lub

Storm chances expand over the west on Monday. Highs will top out in the mid to upper 90s.

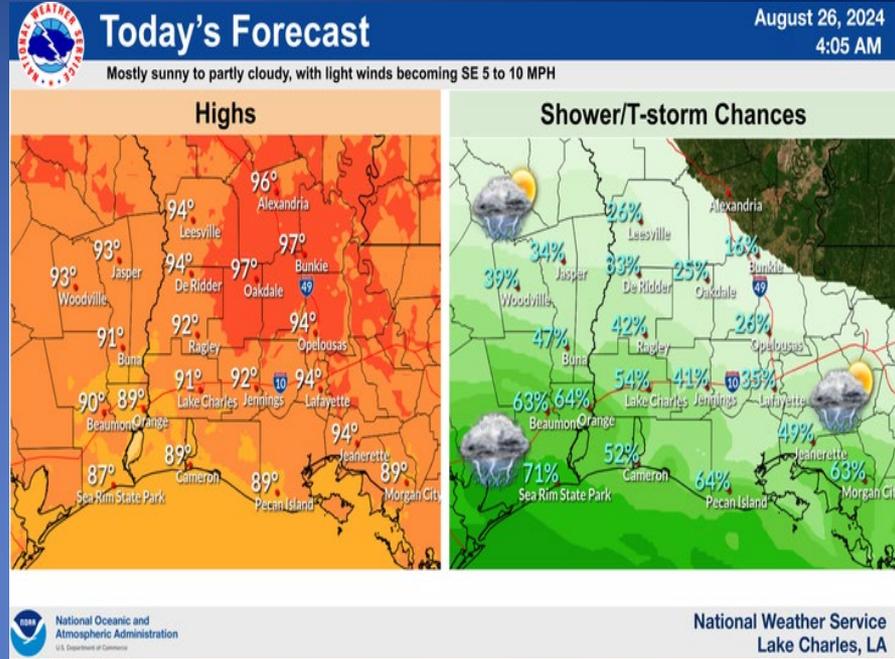

Hazardous Weather

Rain Chances in Central Texas to Begin the Week

Weather Forecast Office
Fort Worth, TX
Issued August 26, 2024 2:28 AM CT

Scattered showers and storms are possible on both Monday and Tuesday afternoons, mainly across Central Texas. Highs will be in the mid and upper 90s, but humidity will be slightly higher than previous days. No severe weather is expected.

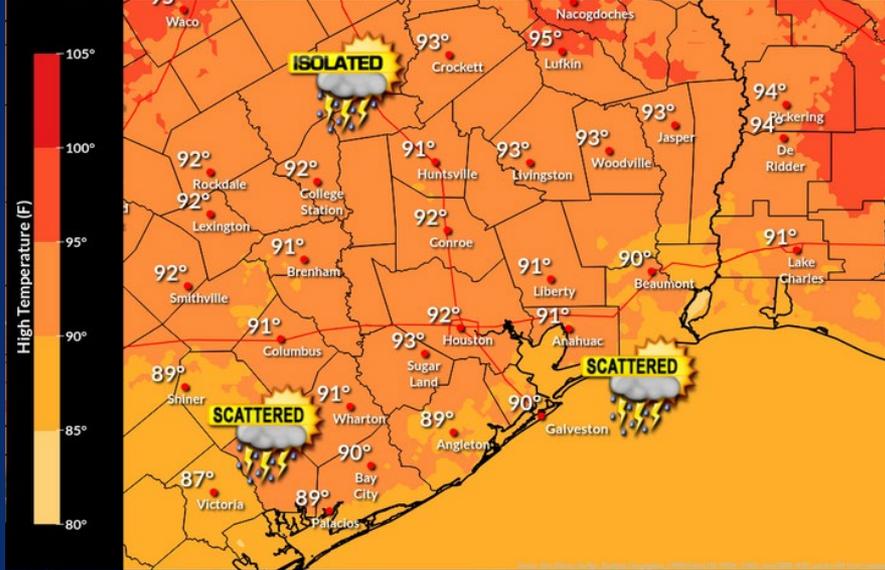

Scattered showers and storms expected to develop through the day, with the highest rain chances across lower southeast Texas. High temperatures will be a little lower in areas that see a higher coverage of showers and storms, with temps around 90 degrees. Away from convection, high temps will be hot, reaching the middle to upper 90s.

Hazardous Weather

Today's Outlook

Scattered shower and storms, mainly near the coast, and seasonal temperatures

Weather Forecast Office
Houston/Galveston TX
Issued Aug 26, 2024 2:40 AM CDT

@NWSHouston

weather.gov/hgx

Highs in the low to mid 90s. Isolated to scattered showers and thunderstorms expected during the day, mainly south of I-10.

Scattered Showers & Thunderstorms Today

Medium to High Chance | Greatest over Victoria Crossroads | Heat Index 100-105

Weather Forecast Office
Corpus Christi, TX
Issued Aug 26, 2024 3:45 AM CDT

NWSCorpus

weather.gov/crp

A mid-level low approaching the Victoria Crossroads area will cause a medium to high chance of showers and thunderstorms across South Texas, west to east respectively. High temperatures will be suppressed from the upper 80s to around 100 out west with max heat index values of 100-105°F.

Hazardous Weather

Partly Cloudy With Scattered Thunderstorms

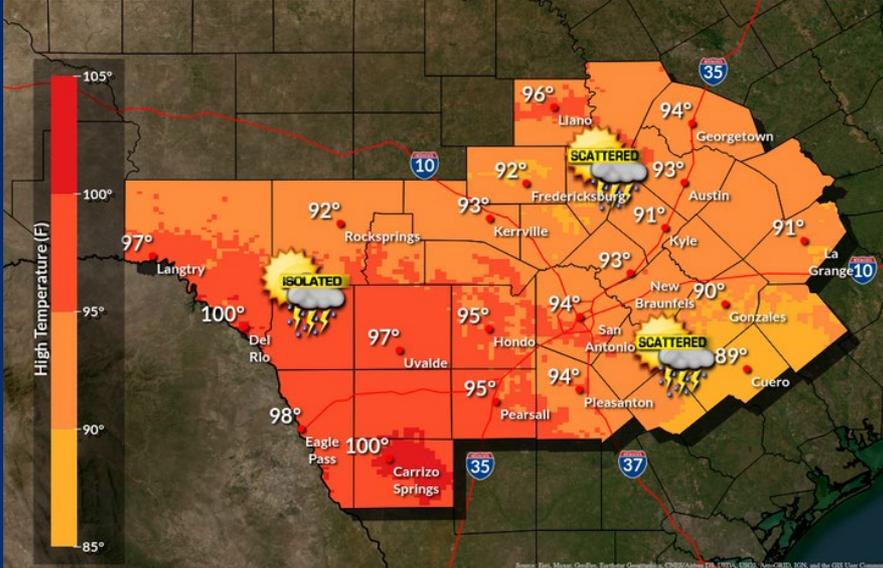

Weather Forecast Office

Austin/San Antonio, TX

High Temperatures Will Be Near Normal

Issued Aug 26, 2024 2:39 AM CDT

NWSSanAntonio

weather.gov/ewx

Today will be partly cloudy with isolated to scattered showers and thunderstorms. High temperatures will be near normal ranging from the lower 90s to near 100.

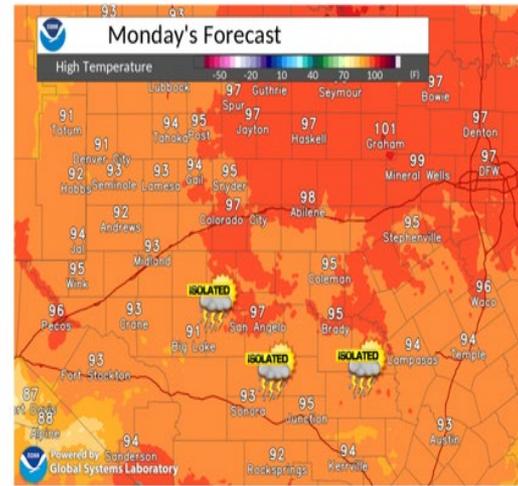

Warm & Isolated Showers Today

August 26, 2024

3:31 AM

Afternoon High Temperatures

Afternoon highs in the 90's with

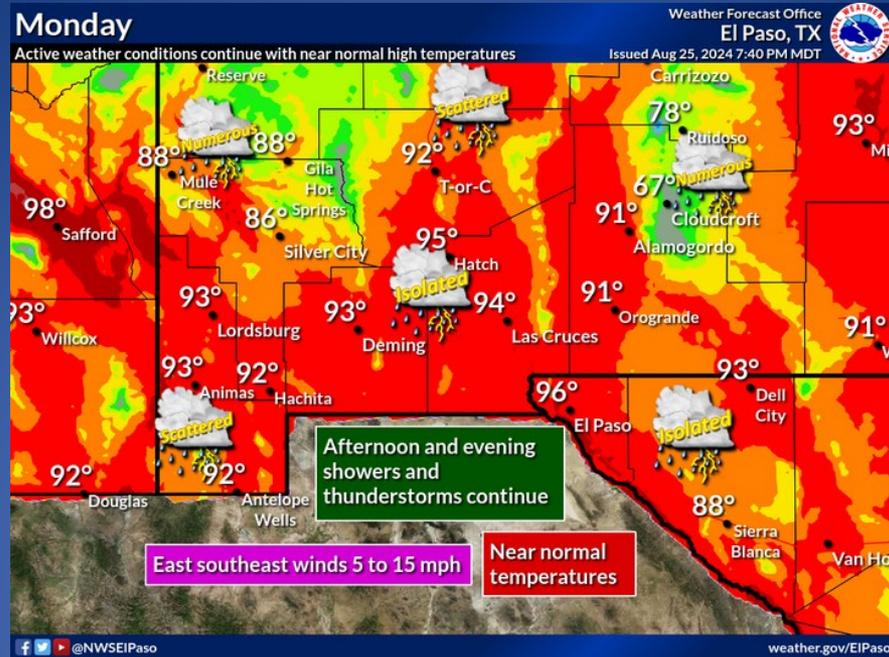

ISOLATED Slight chance for isolated showers and thunderstorms south of I-20 today.

ELEVATED FIRE THREAT East to Southeast winds 10 to 15 MPH, with a few higher gusts. RH 25 to 35%

National Oceanic and Atmospheric Administration
U.S. Department of Commerce

National Weather Service
San Angelo, TX

Hazardous Weather

Active weather will continue for our area as high pressure moves over the Midwest and an inverted trough moves across the far Southwest. Showers and thunderstorms are expected during the afternoon and evening hours. The main concerns will be heavy rainfall that can lead to flash flooding and strong gusty winds. The skies will be partly to mostly cloudy with the high temperatures in the afternoon near the normal.

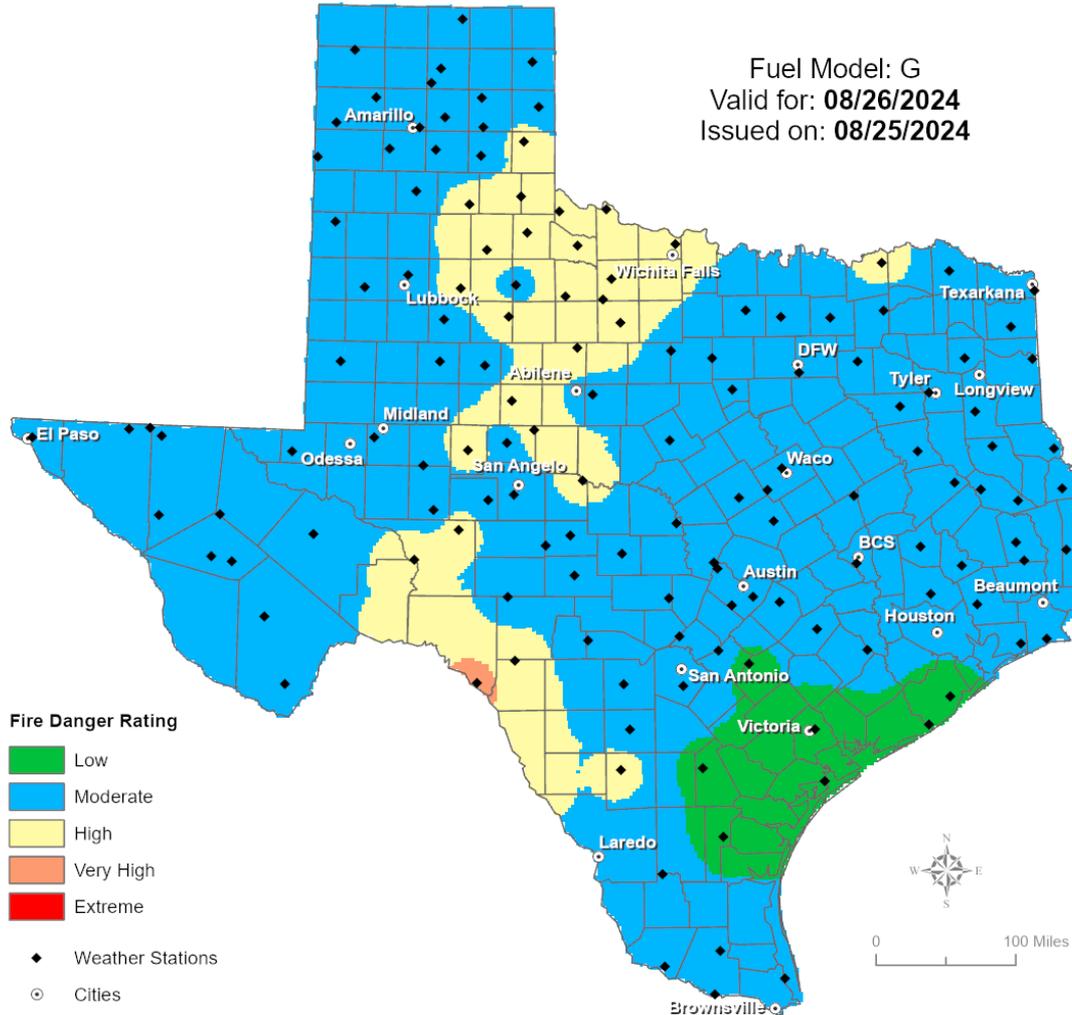

Weather Warnings/Advisories Issued
