HeatRisk: Major

HEAT ADVISORY AREA

weather.gov/shv

National Weather Service - Shreveport, LA

Follow: @NWSShreveport

Updated: Fri Jul 31, 2026 5:57 AM

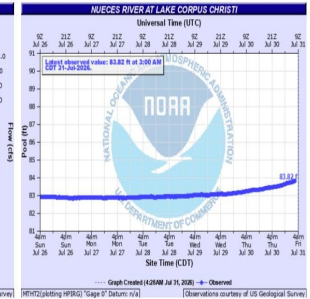

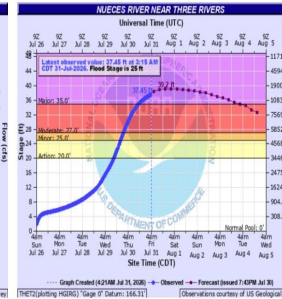

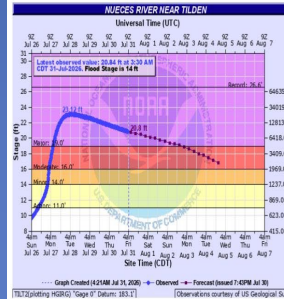

A Heat Advisory continues through this evening. Afternoon heat indices will peak near 105 to 109 degrees. Be sure to exercise heat safety if spending time outdoors!

Nueces River Flooding

July 31, 2026
4:37 AM

- **Tilden:** Will remain in **major flood** conditions through Saturday night. A slow recession will continue.
- **Three Rivers:** Will remain in **major flood** through the Weekend. Expected to crest around 39.5 feet today into tonight.
- **Lake Corpus Christi:** A slow rise has begun, with continued gradual rise for the next week.

National Oceanic and Atmospheric Administration
U.S. Department of Commerce

National Weather Service
Corpus Christi, TX

Major flooding continues on the Nueces River at Tilden and Three Rivers. We are seeing a slight rise on Lake Corpus Christi, but will see better rises over the next week or so.

Hazardous Weather

NWS Brownsville/RGV, TX

What is Major HeatRisk?

extreme

3 - major

moderate

minor

little/none

**Major HeatRisk is the
3rd of 4 levels
of HeatRisk**

What it means:

- Major Risk of heat-related illnesses for much of the population - especially those without effective cooling or hydration.
- Little to no relief at night - air conditioning is necessary - fans and open windows at night will not be enough.

Actions to take:

- Drink plenty of water
- Wear lightweight, light-colored clothing
- Avoid outdoor activities during the warmest parts of the day
- Stay in an air conditioned location, especially during the day
